

**FileMaker Pro Advanced** File Edit View Insert Format Records Scripts Tools Window Help

WindowTop : 61  
WindowLeft : -41

OS X Toolbar : 22  
Title Bar : 22  
Status Toolbar : 83  
Formatting Bar : 25  
Text Ruler : 22

Show / Hide Toolbars [ Show / Hide / Toggle ]  
Hiding the 83px status toolbar will  
\* reduce the WindowHeight by 58  
\* add 25 to the WindowContentHeight

Allow Formatting Bar [ On / Off ]  
\* enables / disables the formatting button  
\* does NOT show / hide formatting bar

No Get ( ) function for Formatting Bar visibility state... can be derived from other Get ( ) functions.

Show / Hide Text Ruler [ Show / Hide / Toggle ]
